Tools & Services

This portal offers guidance and tools for suppliers, dealers, and installers. The focus is on new regulations from 2023 to 2027, especially for heating, air conditioning, PV products, and white goods. More tools and information coming by 2025, depending on the finalisation of regulations. Product specific topics include detailed explanations of new and changed requirements and their timeline.

Key information available: Products in scope / Basic requirements / What to document / How to register in EPREL / Importing products / Placing your products on the market / Preparation for market surveillance, etc.
