Newsletter n. 5 • December 2025

Welcome to the #ComplianceServices project's fifth newsletter!

The Compliance Services project brings the latest news and updates on changes in the EU energy labelling and ecodesign regulations – mainly in the field of heating, smartphones & slate tablets, white goods (e.g. tumble dryers), air conditioning, PV products, etc.

In this edition of the newsletter, we provide you with links to our latest documents on local space heaters and on smartphones and slate tablets and invite you to a webinar on energy labelling for dealers.

Local space heaters

On November 5th, 2025, the Compliance Services team has organised a webinar for the suppliers of local space heaters to inform them about the new ecodesign requirements. Find below links to the respective documents:

- The **Webinar presentation** with all slides and the **Questions and Answers document** with answers to participants' individual questions are available for download here:

- **Quick Guide document** on ecodesign requirements for local space heaters' suppliers is available for download here:

[Quick Guide: Local Space Heaters \(to be downloaded or printed\) - Compliance Services](#)

Smartphones and tablets

On September 30th, 2025, the Compliance Services team has organised a webinar for the suppliers of smartphones, slate tablets, cordless phones and other mobile phones to inform them about the new energy labelling and ecodesign requirements. Find below links to the respective documents:

- **Full presentations and a Questions and Answers document** with answers to participants' individual questions are available for download here:

Visit our project website!

The Compliance Services project website contains a wide range of information for suppliers, dealers and other professional stakeholders on energy labelling and ecodesign requirements, focusing both on selected general requirements, and on the product categories with recent changes in the respective regulations, mainly tumble dryers, smartphones/slate tablets and local space heaters.

The website is available in English, with information also being provided in Czech, Danish, French, German, Italian, and Portuguese.
